BIOTECHNOLOGIES TO YOUR EXPECTATIONS

germe

Created in 1979 in Marseilles, GERME S.A. is a company specialized in biotechnologies.

GERME S.A. has been operating know-how for over 30 years in:

- Innovative molecules screening and purification,
- Biological products development and making,
- Biological process creation, development and enhancement.

This know-how includes the following skill fields:

- Microbiology
- Biochemistry
- Biotechnology
- Health engineering : microbial hazard analysis

Activities diversify in services and production. They apply to various application fields:

- Agri-food sector
- Soil enhancement
- Environmental treatment
- Chemistry: biosynthesis and bioconversion
- Cosmetics industry
- Dietetics industry
- Pharmaceutical industry

LIPOLYTIC ENZYME INHIBITORS SCREENING AND ANALYSIS

pH-stat method

GERME S.A. is one of the pioneer biotechnologies companies created in Marseilles in 1979. Its expertise areas are Biochemistry and Microbiology. Thanks to its close collaboration with the Laboratory of Enzymology at Interfaces and Physiology of Lipolysis (EIPL), **GERME S.A.** has developed and validated **lipolytic activity control methods of numerous enzymes allowing:**

- Specific or not inhibitors characterization
- Innovative lipolytic enzymes inhibitors screening

THESE METHODS ENABLE TO TEST THE LIPOLYTIC ENZYME INHIBITOR ACTIVITY :

- medical interest for anti-obesity treatment
- used in cosmetics formulation
- possibly used in industrial cleaning processes of dairy product facilities

OUR MEANS

- Skilled and experienced staff
- State-of-the-art and high-quality equipment
- Procedures set following the GLP, USP, European Pharmacopoeia or the FDA directives

TARGETS

- *Pharmaceutical industries*
- *Agri-food industries*
- *Cosmetic industries*
- *Research laboratories*

OUR COMMITMENTS

✓ Cost and deadline compliance ✓ Confidentiality policy ✓ Eco-friendly practice
